Test Tech

Our Test Prep class has changed to Test Tech class. Our class will start each story by writing a short prediction of the story by the title and we will be reading the predictions to the class. We will then read and answer up to 20 questions about the stories.   The student will then write a one paragraph summary. We start off slow with one to three sentences. By the end of the nine weeks, the students should be writing a 1 to 3 page conclusion to the story. We will be reading our summaries and conclusion s at the front of the class.
