Mrs. Post's

Classroom connection

November 18 - 22, 2024

Multiplication

We are finishing up Factivation and moving toward a traditional 90 second timed tests. We will start with 2's and move up from there.

Students are asked to practice on their own at home to prepare for daily quizzes. Flash cards, computer games, verbal quizzing, etc. are all ways a child can practice. They will have 10 calendar days to pass from one family to another before they will be required to do some written homework practice.

According to our state standards, students should be fluent in multiplication and division by the end of 3rd grade. This skill is crucial to their success in higher level math. Please help your child on this journey.

Important Dates

- Nov. 21 ~ 5 week grade check
- Nov. 25-29 ~ Thanksgiving Break
- Dec. 20 ~ End of 1st Semester
- Dec. 23-Jan. 6 ~ Winter Break
- Jan. 7 ~ Classes Resume

What We're

Accelerated Reader

Students are working toward their individual goals and earning their bracelets and croc charms.

Thankful

During this season of gratitude, let me say how grateful I am for you and your kiddos!

Wishing you and your families many blessings.

Happy Thanksgiving!
