

# Almanac Graph Practice

## Practice

- In the 1860s, did southern states such as Virginia rely more on farming or manufacturing? \_\_\_\_\_
- About how many billions of dollars of manufactured goods does Massachusetts produce today? \_\_\_\_\_

## Apply

- The information in the chart compares the amount of money people earned in Massachusetts and Virginia in 1950 and 2000. Use the data in the chart to complete the double bar graph below.

**Personal Income Per Person**

State	1950	2000
Massachusetts	1,656	37,960
Virginia	1,257	31,320
