

Almanac Map Practice

Use the map to do these activities and answer these questions.

Practice

- How many representatives does Ohio have? _____
- Which state has more representatives, South Carolina or Hawaii?

- Which state bordering the Gulf of Mexico has 5 or fewer representatives? _____
- Describe how West Virginia is different from the other states near it.

Apply

- Work with a partner to locate the states that have the highest numbers of representatives. Then discuss the following question and provide an answer to it: Why do you think the states with the highest number of representatives are all located along major waterways?
