

Skillbuilder: Read Flow Lines on a Map

Practice

1. From what region on the map have the fewest immigrants come?

2. Have more people immigrated to the United States from Europe or from Africa? _____
3. About how many immigrants have come from Latin America since 1971? _____
4. Study the widths of the flow lines and the number of people each one represents. Use the following data to draw a flow line for Asian immigration into the map.

Asian Immigration, 1971–2000

7,122,007

Apply

Find or create a world map. Using the data below, turn the map into a flow line map. Be sure to draw a legend for the map.

U.S. Immigration, 1850s

Ireland 160,000 Great Britain 50,000
Germany 80,000 Canada 10,000
