Break
Jan 7 Classes resume

We finished up Factivation last week and will now be moving to a more traditional way of memorization. This will be through a 90 second test beginning with 2's and going up from there.

We are asking students to practice on their own at home to prepare for daily quizzes. They will have 10 calendar days to pass from one family to one fact family to the next before they will be required to do some homework practice.

According to our 3rd grade state math standards, students are to be fluent in multiplication and division by the end of 3rd grade. This skill is critical to their success in math further on.

During this time of thanks, I want to say just how thankful I am to be a part of your child's life. This is a role I do not take lightly. My goal is always to make my students feel loved and cared for.

This group makes it easy. Thank you so much for sharing your sweet kiddos with me. I hope your family has a great Thanksgiving.

Please encourage your kiddo to be reading. It is so important for their individual growth to be able to read and comprehend a story, but also to enjoy what they read!
